

# Mateus Guimarães Moraes Vilela

## Full Stack Developer

mateusguimaraesmoraes14@gmail.com    linkedin.com/in/mateusguimaraesmoraes    github.com/mateusgui  
Campo Grande, MS

---

## ABOUT

---

I'm a Full Stack Developer with a degree in Information Technology from UFMS and hands-on experience with production systems, from the back end (Python, C#/.NET, PHP, Node.js) to the front end (React, Vue.js, Next.js, TypeScript).

At Exbe Finance & Tech, I was the technical lead and coordinator of an 18-person team, the technical owner of two production systems and the client's direct point of contact, from requirements gathering to delivery.

I use Claude Code every day for coding, review and debugging, to ship faster without compromising on quality.

## EXPERIENCE

---

### Junior Developer II · Exbe Finance & Tech

Nov 2024 – Sep 2026

*Campo Grande, MS*

- Served as technical lead and coordinator of an 18-person digitization team, in an operation with more than 10 million pages digitized.
- Was the technical owner of two in-house systems in production: Protocol Tracker and the INDEX Project.
- Gathered requirements with the client and drove continuous productivity improvements.
- Handled corrective and evolutionary maintenance, including relational database queries and modeling.
- Used Claude Code daily as part of the development workflow.

### Systems Support Analyst · Nota Control

Feb 2023 – Jul 2024

*Campo Grande, MS*

- Provided technical support to municipalities for NFS-e (electronic service invoice) issuance and tax systems, analyzing and documenting errors.
- Analyzed XML files for system integrations and used SQL Server for reports and fixing data inconsistencies.

## PROJECTS

---

### INDEX Project *(Private)*

Automated reading and indexing of medical records via OCR, using REGEX extraction to classify and name PDFs.

*Python · FastAPI · Uvicorn · Pydantic v2 · JWT · bcrypt · PostgreSQL 16*

### Protocol Tracker *(Private)*

Productivity and metrics tracking for a document digitization operation, running in production.

*PHP*

### Laundry Management CRM *(Private)*

Full stack system with work orders, scheduling and finances.

*TypeScript · Next.js · React · Prisma · PostgreSQL · Docker*

### This portfolio

Portfolio with dynamic themes, language switching and section navigation synced with scrolling.

*React · Vite · TypeScript · Tailwind CSS · i18next*
